

Four Mellon Bank Center

Reflected Ceiling Plan

Location

Pittsburgh, PA

Architect

JSA Architects

Detail, 3D model

Background

The existing building is an historic bank located in downtown Pittsburgh. The property was purchased by Lord & Taylor for adaptive re-use as a department store.

Floor Plans

- Walls
- Door swings
- Columns
- Windows
- Column lines
- Partitions
- Fixed marble furniture

Exterior Elevations

The exterior elevations included two sides of the building, showing complete exterior details. The level of accuracy was sufficient to show every joint and all details.

The most challenging aspect of this project was the 65-foot ceiling, which was heavily detailed with plaster coffers and rosettes.

Time Frame

Interior scanning required less than seven hours on site. Exterior scanning was completed in less than two hours. Final drawings were delivered in less than eight working days. Work was completed in March 1999.
