

## Quantapoint Press Release

# Quantapoint Hires Ben Brown as Senior Consultant for the Process Industries in the Gulf Coast Region

***Will Help Clients Reduce Their Project Rework by 80% and Project Schedules by 75% using Laser Documentation™***

PITTSBURGH, PA (January 23, 2006) — [Quantapoint](#) today announced that Ben Brown has been hired as a Senior Consultant serving the process industries in the Gulf Coast region. Mr. Brown will be responsible for ensuring the continuing satisfaction of Quantapoint's current process industries customers in the region and identifying new clients that could benefit from Quantapoint's [laser documentation](#). Quantapoint uses patented [3D laser measurement technology](#) that can "digitize" an entire plant to provide a single, consistent source of accurate as-built documentation for design, fabrication and construction – without purchasing costly hardware or time-consuming remodeling. The result is significantly reduced project cost and schedule – with clients being able to [reduce both project rework and field data collection by 80%](#).

*"We chose to hire Ben because of his proven track record in leadership, experience, and dedication to customer satisfaction,"* said Wayne Valocik, Director of Sales Operations. *"He has a deep understanding of the process industries and we are confident that he will expand Quantapoint's leadership in this market."*

Mr. Brown added, *"My refinery and petrochemical customers will be amazed at the enormous savings Quantapoint can help them achieve. Imagine 50% fewer field changes, 80% less field data collection time, 80% less rework, and a return on investment of 1,000%. I am especially excited to bring these benefits to the Gulf Coast process industries."*

Mr. Brown is based in Houston. He can be contacted via e-mail at [bbrown@quantapoint.com](mailto:bbrown@quantapoint.com) or directly at 281-493-0514.

## **About Quantapoint**

With nearly 700 successful projects, Quantapoint, Inc. is the world's most experienced and trusted provider of as-built documentation using laser scanning for the offshore, power, process and architectural markets. Quantapoint is an industry leader and innovator, holding several key technology patents. Quantapoint as-built laser documentation provides more accurate and complete information for design, fabrication and construction decisions, including accurate dimensional fit-up, pre-fabrication and clash detection. The result is reduced costs, optimized schedules, increased quality and improved safety, with project rework being reduced by more than 80%, among other benefits.
