

Quantapoint Press Release

Quantapoint Continues Growth in Architectural Industry with Hire of Ben Jacobs as Director of Business Development

Seasoned Professional Responsible for Quantapoint's Sales Efforts in the Architectural Industry

PITTSBURGH, PA (July 3, 2007) — Quantapoint, Inc. today announced the hiring of Ben Jacobs as a Director of Business Development for the architectural industry. Quantapoint provides technology and services to enable clients to achieve zero-defect projects. Quantapoint puts critical facility visuals and information at your fingertips by “digitizing” facilities using our patented laser scanning technology – without time-consuming manual measurement, purchasing costly hardware or error-prone remodeling. Ben will be responsible for ensuring the continuing satisfaction of Quantapoint’s existing architectural customers and identifying new clients that could benefit from Quantapoint’s technology and services.

“Ben brings extensive experience in technical sales to Quantapoint as well as a passion for the industry,” said John Rothermel, Vice President of Business Development at Quantapoint. *“He is a strong addition to the Quantapoint Sales Team, and we are confident that he will identify and develop new clientele while continuing to support and grow existing clients.”*

According to Ben, *“Quantapoint’s technology and services delivers substantial benefits to both architectural firms and facility owners – from feasibility through detailed design and construction, with demonstrable and verifiable improvements to cost, schedule, quality and safety. I look forward to using my experience and expertise to help drive Quantapoint’s revenue growth throughout this industry. I am excited to be part of a great team of people who are working towards a common goal of providing value to our clients.”*

Ben is based in Pittsburgh and can be contacted at 412-215-1755 or via email at bjacobs@quantapoint.com.

About Quantapoint

Quantapoint provides technology and services to help our clients achieve Zero-Defect Projects™. We “digitize” facilities using our patented laser scanning technology and provide professional services for visualization, analysis and decision support to eliminate potential risks across the project lifecycle. Quantapoint has completed nearly 1,000 projects around the world
