

Quantapoint Press Release

John Rothermel Focuses on International Sales

Acknowledged Industry Expert Responsible for Expanding International Market and Ensuring Ongoing Customer Satisfaction

PITTSBURGH, PA (April 18, 2006) — Quantapoint, Inc., provider of the world's most accurate as-built laser documentation™, today announced that John Rothermel, P.E. will focus on Quantapoint's rapidly growing international markets. In this new role, John will continue to assist with business development strategies in North America, but will primarily use his expertise to develop and manage an international sales force and partnerships to capitalize on the significant value offered by laser scanning.

“John is a long-time Quantapoint employee and an integral part of our executive team,” said Eric Hoffman, CEO of Quantapoint. *“With his expertise of both the processing industries and international markets, he is the right person to drive Quantapoint’s international efforts. He has single-handedly developed the market for laser scanning in the U.S. and is now going to repeat our success the world over.”*

John added, *“The same benefits realized by our domestic clients can be achieved internationally. I will use my deep knowledge of the value offered by laser scanning to help address many of the as-built challenges facing the international process industries. This will enhance Quantapoint’s international sales efforts and to help our global partners achieve greater success.”*

John is Vice President of Business Development and is based in Pittsburgh, PA. He can be contacted via e-mail at jrothermel@quantapoint.com or directly at +1-412-653-0100, x-206.

About Quantapoint

With over 750 successful projects, Quantapoint, Inc. is the world's most experienced and trusted provider of as-built documentation using laser scanning for the offshore, power, process and architectural markets. Quantapoint is an industry leader and innovator, holding several key technology patents. Quantapoint as-built laser documentation provides more accurate and complete information for design, fabrication and construction decisions, including accurate dimensional fit-up, pre-fabrication and clash detection. The result is reduced costs, optimized schedules, increased quality and improved safety, with project rework being reduced by more

than 80%, among other benefits. For more information, please visit our website at www.quantapoint.com.
