

## Quantapoint Press Release

### Quantapoint Promotes John Shipley to Director of Services

#### *Experienced and Customer-Focused Leader Responsible for Ensuring Continuing Quantapoint Customer Satisfaction*

**PITTSBURGH, PA (March 23, 2005)** — Quantapoint, Inc., the world's most experienced and trusted provider of as-built documentation using laser scanning, today announced that John Shipley has been promoted to Director of Services. Mr. Shipley will be responsible for ensuring continuing customer satisfaction by coordinating all aspects of Quantapoint as-built laser documentation™ projects. This includes internal training, pre-project planning, field services, data analysis and integration, drawing and model creation, quality control, delivery and ongoing support.

According to Eric Hoffman, CEO of Quantapoint, "This position is vitally important to maintaining and enhancing customer satisfaction during Quantapoint's rapid growth. John is a seasoned veteran, with work experience on 4 continents and many of Quantapoint's more than 600 laser scanning projects. This practical experience – combined with his exceptional track record with customers – make him the right choice to help ensure Quantapoint's continued success. I am confident that he is well suited to this new challenge."

Mr. Shipley has been involved in all aspects of laser scanning since joining Quantapoint in 1999 as a CAD specialist. After one year performing detailed CAD drawings from laser scan data he joined Quantapoint's laser scanning field specialist program. Over the course of his career he was promoted three times, from an apprentice field specialist to field services manager. Mr. Shipley's most recent promotion is in recognition of his experience, leadership, and ability to interact with customers.

#### **About Quantapoint**

With over 750 successful projects, Quantapoint, Inc. is the world's most experienced and trusted provider of as-built documentation using laser scanning for the offshore, power, process and architectural markets. Quantapoint is an industry leader and innovator, holding several key technology patents. Quantapoint as-built laser documentation provides more accurate and complete information for design, fabrication and construction decisions, including accurate

dimensional fit-up, pre-fabrication and clash detection. The result is reduced costs, optimized schedules, increased quality and improved safety, with project rework being reduced by more than 80%, among other benefits.
