

Quantapoint Selects C&C Estudios y Proyectos to Focus on Mexican Business Development

Adds Significant Industrial and Regional Experience and Expertise to the Leader in As-Built Documentation™ Using Laser Scanning

Pittsburgh, PA and México—January 11, 2005—
Quantapoint, Inc., provider of the world's most trusted and accurate as-built documentation using laser scanning, today announced the selection of C&C Estudios y Proyectos, S.A. de C.V. as its representative. Quantapoint is the most experienced provider of integrated as-built laser documentation for the processing, power and architectural industries, typically helping customers reduce construction rework to less than 1% of total installed cost and supplying a greater than 10 times return on investment. C&C principals, Gustavo Candiani and Oscar Casanova add significant industrial and regional experience to Quantapoint and will be responsible for leading the company's business development efforts in Mexico.

“We selected C&C because of their experience, reputation and proven track record,” said Eric Hoffman, Chief Executive Officer of Quantapoint. “They have a strong foundation in Mexico, which is largely unaware of the benefits that our solution offers. We are confident that they will make Quantapoint a leader in this market.”

Mr. Candiani commented, “The processing and power industries in Mexico are continually seeking to improve efficiency and gain a competitive advantage. Quantapoint’s as-built laser documentation solution offers them substantial benefits for specific projects – from conceptual design through construction – and throughout operations, with demonstrable and verified improvements to cost, schedule, quality and safety. The early adopters will gain a significant competitive advantage.” Mr. Casanova added, “We selected Quantapoint due to their focus on laser scanning and portfolio of more than 10 years and over 600 successful projects. This, and their patents on 360-degree laser scanning, gives us a unique capability for Mexico.”

Mr. Candiani holds an MBA from the Universidad Anahuac del Sur, in México City and was most recently the Vice President of Business Development for ISA Ingenieria. Mr. Casanova holds a Civil Engineer Degree from the UNAM (Universidad Nacional Autonoma de México) and was most recently President and CEO for NovaAir and has significant executive experience with construction firms.

About Quantapoint

Headquartered in Pittsburgh, Pennsylvania, Quantapoint, Inc. provides the world's most trusted and accurate as-built laser documentation to the processing and power industries. Quantapoint has become the acknowledged industry benchmark for trust and accuracy by offering a unique combination of advanced technology, experienced and highly trained field crews, proven and repeatable work processes, and next generation software. Quantapoint's solutions have helped customers reduce construction rework to less than 1% of total installed cost and typically provide a greater than 10 times return on investment.
