

Quantapoint Launches New Web Site Focusing on As-Built Documentation Using Laser Scanning

Provides Significant Resources and Information on As-Built Laser Documentation™, Including ROI Analyses, Case Studies and White Papers

Pittsburgh, PA—December 16, 2004—Quantapoint is pleased to announce the launch of our newly redesigned web site at <http://www.quantapoint.com>. The Quantapoint web site now contains significant new resources and information on Quantapoint as-built documentation using laser scanning (as-built laser documentation™). This includes case studies for clients who have benefited from Quantapoint as-built laser documentation, publications quantifying the value offered by laser scanning for the process and power industry and engineering firms, and a project manager's guide that provides an introduction to laser scanning and how to ensure a successful project. The web site also contains additional new information on Quantapoint, including our industry experience, history, alliances and executive biographies. Note that the process/power and architectural sub-sites maintain their original look and feel due to existing references from other sites. These will be transitioned to the new style over time.

By focusing on educating the market on laser scanning, Quantapoint believes that users will better understand laser scanning, its applications and value. According to Eric Hoffman, CEO of Quantapoint, “By providing more information on laser scanning, we can help ensure a better understanding of the capabilities that are available, clear up misconceptions in the market and help ensure more successful laser scanning projects, which benefits everyone.”

Below is a summary list of the resources and information available on www.quantapoint.com:

- **Uncovering the Value of As-Built Laser Documentation for the Processing Industries:** An in-depth analysis of the challenges facing processing companies for operations and revamps, how they can be addressed by Quantapoint as-built laser documentation and its value.
- **Uncovering the Value of As-Built Laser Documentation for the Power Industry:** An in-depth analysis of the challenges facing power producers for outages, how they can be addressed by Quantapoint as-built laser documentation and its value.
- **A Project Manager's Guide to Laser Scanning:** Guide for project managers that provides an introduction to laser scanning and assistance in ensuring a successful project.

About Quantapoint

Quantapoint, Inc. provides the world's most trusted and accurate as-built documentation to the processing and power industries. Quantapoint has become the acknowledged industry benchmark for trust and accuracy by offering a unique combination of advanced technology, experienced and highly trained field crews, proven and repeatable work processes, and next generation software. Quantapoint's solutions have helped customers reduce construction rework to less than 1% of total installed cost and typically provide a greater than 10 times return on investment. For more information, please visit the newly redesigned website at www.quantapoint.com.
