

Quantapoint Promotes Matt Gastgeb to Vice-president of Operations and Pittsburgh Site Manager

Experienced Leader Responsible for Ensuring Ongoing Operational Excellence and Customer Satisfaction

PITTSBURGH, PA (December 8, 2009) — Quantapoint (<http://www.quantapoint.com>) – provider of laser scanning technology and services that provide precise facility as-built information for engineering analysis and asset management – today announced that Matt Gastgeb has been promoted to Vice-president of Operations and Pittsburgh Site Manager. Matt will be responsible for ensuring ongoing operational excellence and customer satisfaction by coordinating all aspects of Quantapoint 3D laser scanning projects. This includes internal training, pre-project planning, field services management, quality control, data analysis and integration and as-built documentation, such as drawings and 3D CAD/BIM models.

According to John R. Wilson, President and CEO of Quantapoint, “This position is vitally important to sustaining and improving customer satisfaction during Quantapoint’s rapid growth. Matt is a seasoned laser scanning veteran, having been involved with many of Quantapoint’s more than 1,400 laser scanning projects in the architectural, process, power and offshore industries. His practical experience – combined with his exceptional track record in operations – make him the right choice to help ensure Quantapoint’s continued success. I am confident that he is the right person for this role.”

Matt added, “Quantapoint’s laser scanning technology and services provide significant value to our customers. We can help companies eliminate project cost and schedule overruns from construction rework as well as improve their knowledge of their facility assets for strategic and risk preparedness. I am looking forward to working with clients to help them extract the greatest value possible from their investment in laser scanning.”

Matt has been involved in all aspects of 3D laser scanning since joining Quantapoint in 2001 as a CAD specialist. After two years of creating detailed as-built drawings and CAD models from 3D laser scan data, he was promoted to CAD supervisor. Matt was promoted twice more to his most recent role as Director of Operations. Matt’s promotion is in recognition of his experience, leadership, and ability to interact with customers.

About Quantapoint

Quantapoint uses [patented laser scanning technology](#) to create a high-resolution Digitized Facility™ of [Laser Models™](#) (not “point clouds”) that can be [accessed directly](#), [within various CAD/BIM packages](#) or [integrated with facility and asset information](#). By putting precise facility as-built information at our client’s fingertips, Quantapoint has helped them improve facility and project performance by reducing costs, optimizing schedules, increasing quality and improving safety. For more information on our technology and services, please visit www.quantapoint.com, e-mail info@quantapoint.com or call +1-412-653-0100.
